Australian Stock Exchange Limited Company Announcements Level 10, 20 Bond Street SYDNEY NSW 2000

NO. OF PAGES : (16)

DECEMBER 2004 HALF YEAR REPORT

Independence Group NL is pleased to announce a record net profit of \$12.5 million for the half year ending 31 December 2004. A fully franked interim dividend of 3 cents will be paid in April 2004.

	2004	2003
Net profit after tax	\$12.5m	\$9.5m
Cash flow from operating activities	\$16.4m	\$11.7m
Diluted earnings per share	11.8¢	10.1¢

Key Points

- Net profit after tax of \$12.5 million for the half year, a 32% increase on the previous corresponding period
- Strong cash flow from operations of \$16.4 million underpins the company's growth and shareholder returns
- Reserves at the Long nickel mine increased to 48,300 nickel tonnes in June 2004, representing a mine life of at least 5 years
- Interim dividend of three cents per share following the maiden dividend of five cents per share declared for the 2004 full year
- Acquisition of a strategic 19.9% stake in Matrix Metals Limited as part of the strategy to become a diversified commodity producer

Operations

• Total production for the six months ended December 2004 was 114,011 tonnes at an average grade of 4.13% for 4,705 tonnes of metal delivered. A total of 848

nickel metal tonnes were mined outside or in excess of existing ore reserves, representing 18% of production for the period.

- The development of the Victor South ore body at the Long nickel mine has contributed to the increase in production, and has also led to a substantial increase in head grades in the December quarter.
- The increase in production has combined with successful implementation of costsaving initiatives to drive cash costs substantially lower. Cash costs for the period were A\$3.10/payable pound, with a record low A\$2.65/payable pound in the December quarter.
- The substantial program initiated in the March 2004 quarter to increase reserves at the Long nickel mine resulted in an increase in reserves to 48,300 tonnes of metal in June 2004. This reserve expansion program is ongoing.
- The Board approved \$4 million of expenditure for development of the Long South exploration decline. This commenced in the December quarter and advanced 160 metres of a targeted 1,315 metres. Drilling at the Long South target has previously intersected a number of encouraging intercepts indicating potential for additional nickel sulphide mineralisation.

Investments

Independence is committed to its goal of establishing a substantial mid-tier diversified mining company. Consistent with this was the acquisition in November 2004 of a 19.9% stake in Matrix Metals Limited, a copper explorer in the Mt Isa region which has just completed a feasibility study on its White Range copper project. Independence is confident that the economics of the White Range project can be improved. Matrix also contains substantial upside, with the similar sized but less advanced Mt Watson project, a solid cash position of \$16 million, and the outstanding exploration prospectivity of its large regional tenement holding for copper, gold and uranium. It is considered that Matrix has the potential to become a 30,000 tonne p.a. copper producer from its two 100%-owned projects.

Financials

- Total revenues for the half year increased by 35% to \$45.3 million (Dec Half 2003: \$33.5 million).
- Net profit for the half year of \$12.5 million was driven by increased production, a focus on targeted cost reductions and strong spot nickel prices. Fully diluted earnings per share increased to 11.8 cents from 10.1 cents in the previous corresponding period.

- Strong cash flow generation from operating activities of \$16.4 million was a 40% increase over the previous corresponding period despite the payment of income tax of \$4.9 million (Dec Half 2003: \$0).
- Cash and deposits stood at \$12.4 million at 31 December, with an additional \$11.4 million in net receivables.
- Independence funded the 2004 dividend (\$5.4 million) and Matrix investment (\$11.8 million) through existing cash reserves and operating cash flow, and at the same time retired \$3.7 million of debt.

Dividends

An interim dividend of three cents per share fully franked has been announced, reflecting the strength of cash flow generation from operations. The record date to determine entitlements is 24 March 2005 with the payment to be effected on 4 April 2005. This follows the maiden dividend of five cents per share for the 2004 full year, which was paid to shareholders in December 2004.

Outlook

Independence is focused on continuing to expand the Long nickel mine reserve base and maintaining a solid operational performance. This places the company firmly on track to meet its budgeted 2004/5 production of 222,000 tonnes at 4.0% Ni for production of 8,900 tonnes of payable nickel metal.

Exploration and evaluation will continue at a number of nickel, copper and gold projects where early stage work has returned encouraging results.

The full half year report is attached.

Loss from extraordinary item after income tax			-	-
Net profit attributable to members of Independence Group NL			12,519	9,473

Comments on the operations and the results of those operations are set out below:

a) Nickel mining

This division consists of Lightning Nickel Pty Ltd's Kambalda operation, the Long Nickel Mine.

b) Exploration activities

Exploration expenditure is incurred throughout Australia. The exploration activities in the above segment relate to that portion of exploration expenditure incurred on projects for which the company believes no future income is likely to be generated. Expenditure on projects still in the assessment and evaluation stage are capitalised and are not included in this segment.

Profit from ordinary activities before related income tax expense increased by \$4.7 million (34.7%) to \$18.2 million.

The major factors contributing to this increase are as follows:-

- Spot nickel prices during the 2004 period were higher than in 2003.
- 2004 monthly nickel production was significantly higher than in 2003.
- 2004 unit operating costs were significantly lower than in 2003.

Auditor independence declaration

The Auditor's Independence Declaration on page 13 forms part of the Director's Report for the half-year ended 31 December 2004.

Note 1. Basis of preparation of half-year financial report

This general purpose financial report for the interim half-year reporting period ended 31 December 2004 has been prepared in accordance with Accounting Standard AASB 1029 *Interim Financial Reporting*, other mandatory professional reporting requirements (Urgent Issues Group Consensus Views), other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2004 and any public announcements made by Independence Group NL during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

Unless otherwise stated, the accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period.

Note 6. Adoption of International Financial Reporting Standards

The 2004 Annual Report includes an explanation of the expected future impact on the Company of the adoption of Australian equivalents to International Financial Reporting Standards ("IFRS"). Details of the impact of the adoption of IFRS are included in note 33 to the 30 June 2004 financial statements which are incorporated in the 2004 Annual Report.

Since the preparation of the 30 June 2004 financial statements, AASB 6 *Exploration for and Evaluation of Mineral Resources* has been approved. The carrying value of the company's exploration and development expenditure may be affected by the application of AASB 6. Although the effect of the application of this standard has not yet been quantified, the company believes that the amount of any adjustment required will be immaterial.

Note 7. Subsequent events

Subsequent to the end of the period the market value of the company's investment in Matrix Metals Limited was \$4,502,159 below the carrying value of the investment. It is the current intention of the board to hold the investment long term and the company believes the investment to be fully recoverable. The investment has therefore not been written down to the current market value.

On 16 February 2005 the company announced an interim dividend of 3 cents per share. The dividend will be fully franked.

The directors declare that the financial statements and notes set out on pages 5 to 10:

- (a) comply with Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements, and
- (b) give a true and fair view of the consolidated entity's financial position as at 31 December 2004 and of its performance, as represented by the results of its operations and its cash flows, for the half-year ended on that date.

In the directors' opinion:

- (a) the financial statements and notes are in accordance with the Corporations Act 2001; and
- (b) there are reasonable grounds to believe that Independence Group NL will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

To the members of Independence Group NL

<u>Scope</u>

We have reviewed the financial report of Independence Group NL for the half-year ended 31 December 2004 as set out on pages 6 to 12. The financial report includes the financial statements of the consolidated entity comprising the Company and the entities it controlled at the end of the half-year or from time to time during the half-year. The Company's directors are responsible for the financial report. We have performed an independent review of the financial report in order to state whether, on the basis of the procedures described, anything has come to our attention that would indicate that the financial report is not presented fairly in accordance with Accounting Standard AASB 1029: Interim Financial Reporting, other mandatory professional reporting requirements in Australia and statutory requirements, so as to present a view which is consistent with our understanding of the consolidated entity's financial position, and performance as represented by the results of is operations and its cash flows, and in order for the Company to lodge the financial report with the Australian Securities & Investments Commission.

Our review has been conducted in accordance with Australian Auditing Standards applicable to review engagements. A review is limited primarily to inquiries of the Company's personnel and analytical procedures applied to the financial data. These procedures do not provide all the evidence that would be required in an audit, thus the level of assurance provided is less than given in an audit. We have not performed an audit and, accordingly, we do not express an opinion.

Independence

In conducting our review, we followed applicable independence requirements of Australian professional ethical pronouncements and the Corporations Act 2001. We have given to the director's of the company, a written Auditor's Independence Declaration.

<u>Statement</u>

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Independence Group NL is not in accordance with:

- (a) the Corporations Act 2001, including:
 - (i) giving a true and fair of the consolidated entity's financial position as at 31 December 2004 and of its performance for the half-year ended on that date; and
 - (ii) complying with Accounting Standard AASB 1029: Interim Financial Reporting and the Corporations Regulations 2001; and
- (b) other mandatory professional reporting requirements in Australia.
