

#### **DISCLAIMER**

Certain oral and written statements contained or incorporated by reference in this presentation, including information as to the future financial or operating performance of the Company and its projects, constitute forward-looking statements. All statement, other than statements of historical fact, are forward-looking statements. The words "believe", "expect", "anticipate", "contemplate", "target", "plan", "intend", "continue", "budget", "estimate", "may", "will", "schedule" and similar expressions identify forward-looking statements.

Forward-looking statements include, among other things, statements regarding targets, estimates and assumptions in respect of nickel, gold or other metal production and prices, operating costs and results, capital expenditures, mineral reserves and mineral resources and anticipated grades and recovery rates. Forward-looking statements are necessarily based upon a number of estimates and assumptions related to future business, economic, market, political, social and other conditions that, while considered reasonable by the Company, are inherently subject to significant uncertainties and contingencies. Many known and unknown factors could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements. Such factors include, but are not limited to: competition; mineral prices; ability to meet additional funding requirements; exploration, development and operating risks; uninsurable risks; uncertainties inherent in ore reserve and resource estimates; dependence on third party smelting facilities; environmental regulation and liability; currency risks; effects of inflation on results of operations; factors relating to title to properties; native title and aboriginal heritage issues; dependence on key personnel; and share price volatility and also include unanticipated and unusual events, many of which are beyond the Company's ability to control or predict.

The Company disclaims any intent or obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise. All forward-looking statement made in this presentation are qualified by the foregoing cautionary statements. Investors are cautioned that forward-looking statements are not guarantees of future performance and, accordingly, not to put undue reliance on such statements.

#### **FINANCIAL SUMMARY**

Capital Structure: ASX 200 Code : IGO

**232.9M shares** 

Financials: Market Cap. (12/11/12): A\$999.1M

Cash (end Sept Qtr 2012):

A\$146.9M

Debt (end Sept Qtr 2012):

(A\$21.4M)

**Substantial shareholders: 65 Institutions in Top 100** 

67% Australian 10% Overseas

Dividends: Interim dividend (23 Mar 2012) 2c

Final dividend (28 Sep 2012) 1c

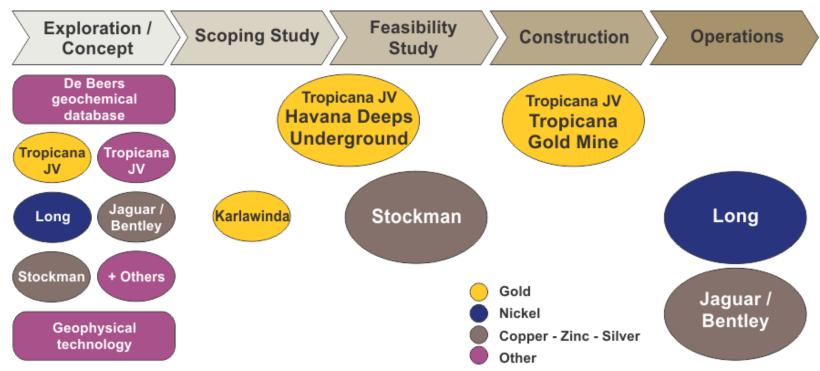

Total Dividends Paid to Date 70c

Paid to Governments: Corporate Tax A\$135M Royalties A\$46M

#### **IGO ASSET PIPELINE**

 Combination of low cost cash flows from current operating mines with significant long-life development projects and highly prospective exploration

 Highly complementary management and technical capabilities, with proven successful track records of exploration, project management and operations

#### **IGO MAJOR PROJECTS**

#### **LONG NICKEL OPERATION (IGO 100%)**

- Record^ Annual 2012 Production 9,995t Ni (2011/12 Guidance 8,800-9,200t Ni).
- IGO produced over 83,000t Ni since acquisition.
- June 2012 Ore Reserve 41,900t Ni and Resource 76,600t Ni.
- Exploration success continues to add to Mining Inventory

Long Nickel Operation	2011/12 Actual	2012/13 <b>Guidance</b>	Sept Qtr 2012
Production (Ni Tonnes)	9,995	9,200 – 9,600	2,952
*Cash Costs (A\$/lb Ni)	\$4.74	\$4.80 - \$5.00	\$3.88
Tonnes	282,177	260,000 - 280,000	76,713

<sup>\*</sup> Cash Costs are reported based on Payable Metal Including Royalties

Hedging: FY13 200 Ni tonnes per month @ A\$12.17/lb

#### **HEAVY MEDIA SEPARATION PLANT**

- Removes waste rock from diluted ore and stringer sulphides.
- Increases mill head-grade resulting in reduced processing costs.

#### **DE BEERS DATABASE (IGO 100%)**

- Long term exploration asset to find new Australian mineral camps.
- 293,000 geochemical samples collected by De Beers over 30 years.
- IGO analysing samples for 57 elements including Ni, Cu, Pb, Zn, Au, Ag, Pt, Pd, U, rare earths, Sn, Li, K etc.
- Over 49,000 samples analysed to date generating numerous geochemical anomalies.
- IGO has pegged a number of previously unknown gold, copper, zinc and tin anomalies.

## IN 2011 DOMESTIC GOLD PRODUCTION >100KOZ CAME FROM 31 OPERATIONS

#### **AUSTRALIAN GOLD PRODUCTION**

- BETWEEN 2000 AND 2011 AUSTRALIAN GOLD OUTPUT HAS BEEN STEADY
- CASH COSTS HAVE INCREASED 100%

#### RECENT AUSTRALIAN GOLD MERGERS

COMPANIES	LOCATION
Silver Lake / Integra	Kalgoorlie, WA focus
Evolution / Conquest Mining / Catalpa: 2 Newcrest mining Assets	Queensland and WA
Resolute / Noble Minerals	Africa focus
Alacer / Avoca Minerals	Australia and Turkey focus
Focus / Crescent Gold – then merger into Chinese Shangdong Gold	Kalgoorlie, WA focus
Northern Goldfields / Chinese Zijin Mining Company	Kalgoorlie, WA focus
St Barbara / Allied Gold	WA and PNG
Auzex Resources / GGG Resources Bullabulling merger	Kalgoorlie,WA focus

- No significant major international gold producer takeover activity at this stage
- International gold producers focused on reducing costs
- Chinese companies starting to take over / farm into high cost Australian gold producers.

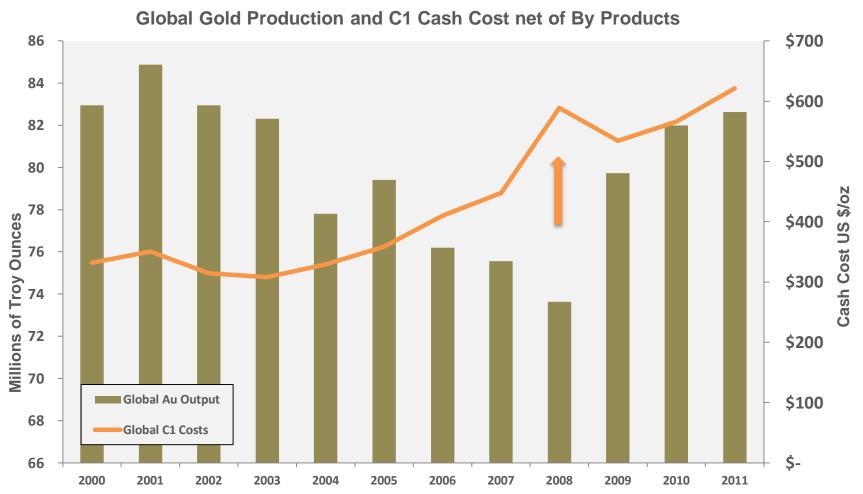

#### **GLOBAL GOLD PRODUCTION**

Source:

#### Independence Group

- FOLLOWING THE LOW OF THE GFC GLOBAL
- GOLD PRODUCTION HAS INCREASED TO LEVELS REACHED IN THE EARLY 2000's

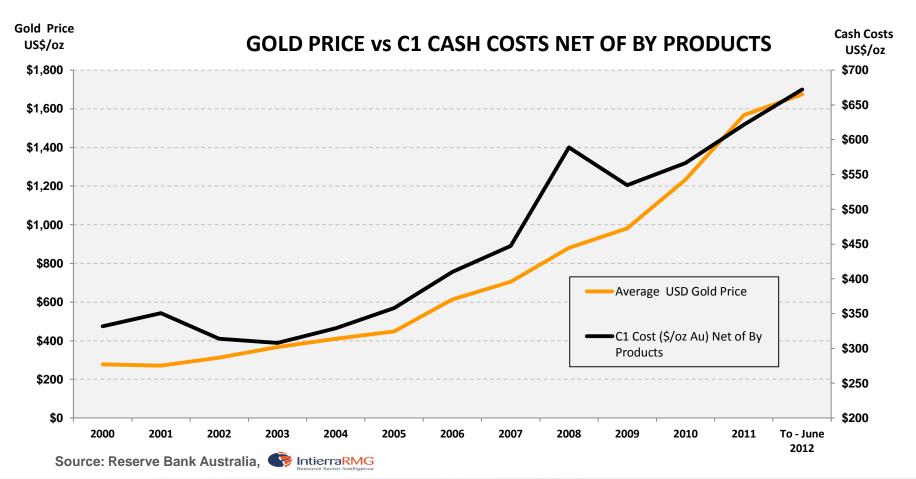

#### **FACTORS AFFECTING GOLD PRODUCERS**

GLOBAL CASH COSTS AND GOLD PRICE HIGHLY CORRELATED

**Independence Group** 

A FUNCTION OF LOWER GRADE MATERIAL BECOMING ECONOMIC

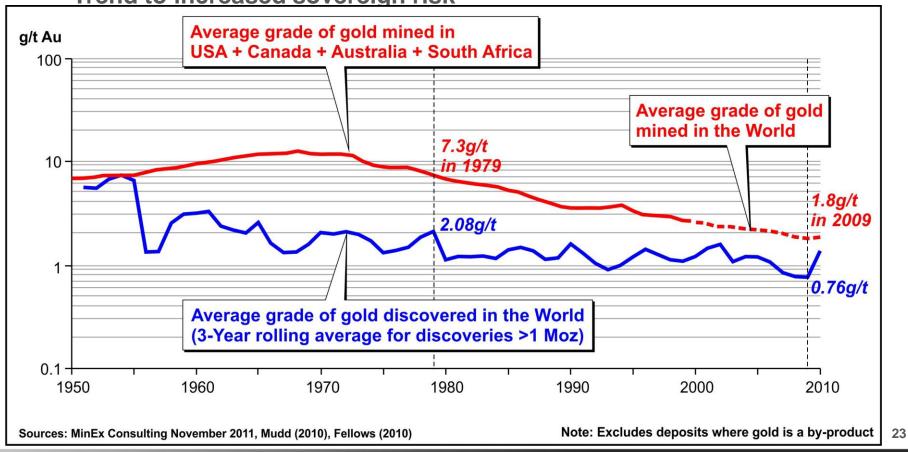

DEVELOPMENT

#### **FACTORS AFFECTING GOLD PRODUCERS**

#### GRADES ARE DECLINING OVER TIME

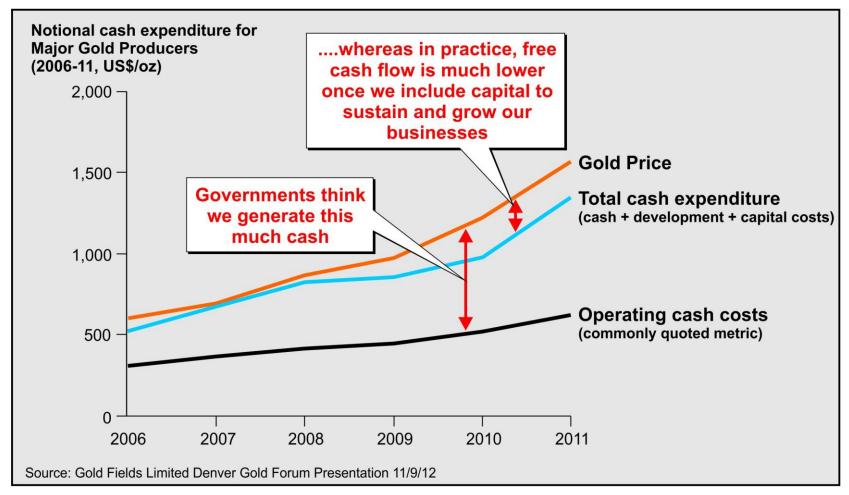

- Discovery rates are in decline
- Discovery costs are increasing
- Trend to increased sovereign risk

#### **CASH COSTS & TOTAL COSTS**

## IRRESPECTIVE OF GOLD PRICE MINERS TO FOCUS ON VALUE

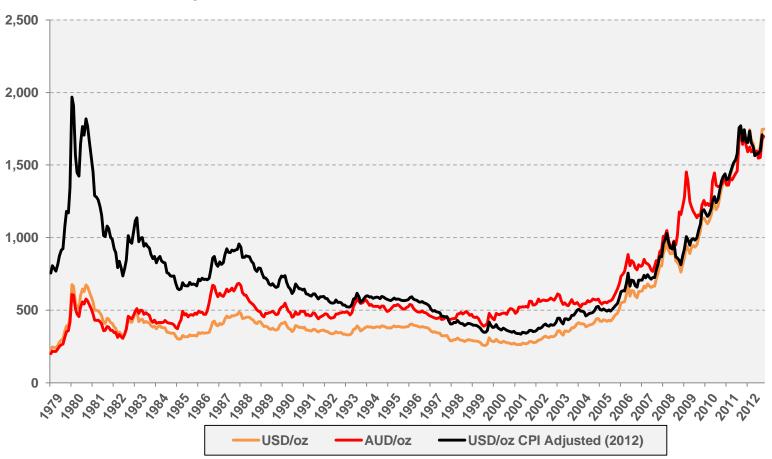

Note: Major Gold producers defined as: AngloGold Ashanti, Barrick, Harmony, Kinross, Goldcorp, Gold Fields, Newmont and Newcrest; "Estimated NCE/oz based on local cash costs plus capex for existing operations, weight averaged by production (excludes new mine development capex)

#### **GOLD PRICE**

## WHERE HAVE WE COME FROM AND WHERE ARE WE GOING?

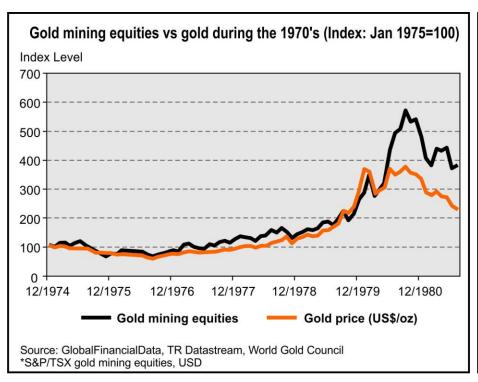

#### Gold Price January 1979 to October 2012

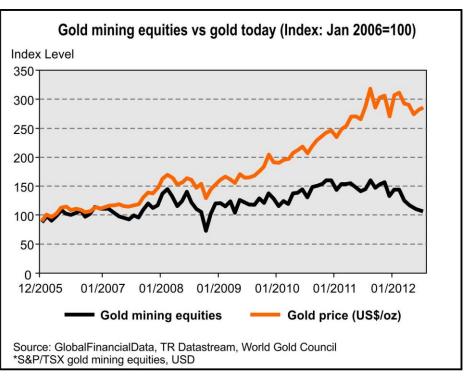

#### **FACTORS AFFECTING GOLD PRODUCERS**

- LATE 1970'S GOLD MINING EQUITIES OUTPERFORMED GOLD
- LATE 2000'S GOLD MINING EQUITIES UNDERPERFORMED GOLD

#### **COMPETENT PERSONS STATEMENTS**

#### Notes:

The information in this summary presentation that relates to Exploration Results is based on information compiled by Mr Christopher M Bonwick who is a full-time employee of the Company and is a member of the Australasian Institute of Mining and Metallurgy. Mr Bonwick has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Bonwick consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this summary presentation that relates to Mineral Resources or Ore Reserves is a compilation of previously published data for which Competent Persons consents were obtained. Their consents remain in place for subsequent releases by Independence Group NL of the same information in the same context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent. Public releases to the ASX of Mineral Resources or Ore Reserves have been referenced on each slide in this summary presentation, in accordance with clause 5 of the 2004 edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. These references include the Competent Persons consent for each Mineral Resource or Ore Reserve.
